Engineered unlike any other.

The judges agree. The C-Class, 2007 *Wheels* Magazine Car of the Year.

Seven years is a long time to devote to anything, let alone a luxury sedan. So it's heartening to be recognised with such an outstanding award as the 2007 *Wheels* Magazine Car of the Year. Our engineers have been recognised worldwide and now the judges of *Wheels* Magazine Car of the Year have added another accolade. Visit Neil Buckby Motors to see what the fuss is all about.
